

COMMERCIAL.

GAZETTE OFFICE, March 19.
Business in all departments fairly active. Grocerymen laying in large supplies, and holding goods at prices as low as the present condition of the Eastern market will justify. Merchants are receiving spring stocks of dry goods, and taken altogether the outlook for local business is good.

AMERICAN WHEAT MARKETS.

Prices have been sustained in the American markets lately mainly by the apprehensions about the weather and the possibility of further damage to the winter wheat. But there are also good many who claim that as wheat is still from 15c. to 18c. per bushel below the price of a year ago, and is also below the average price of the last seven or eight years, it is a cheap and safe investment held, at least until the prospects of the next crop in this country are more clearly foreseen than at present. Telegraphic reports from Indiana on Thursday estimate the damage to winter wheat in various parts of that state by winter killing at from 10 to 50 per cent. of the crop planted. It is also true that the exportable surplus of wheat in this country yet from the crop of 1882 cannot be over 60,000,000 at the most 65,000,000 bushels.
